

MARYAM MUMTAZ

Forward Deployed Engineer (FDE) | AI Agent Engineer | Full-Stack Developer

Karachi, Pakistan | maryamqureshimumtazm.a@gmail.com

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Forward Deployed Engineer and AI Agent Engineer based in Karachi, building production-grade AI agents and full-stack platforms at Marsa Empower. I lead architecture, development, deployment, and product delivery, designing and shipping multi-agent architectures, RAG pipelines, and AI-powered automation with Python, FastAPI, Next.js, TypeScript, MCP, and n8n. I have built 100+ projects, taken 30+ live, and sold 20+, and I am comfortable owning work end-to-end, from requirements and architecture through deployment.

CORE SKILLS

AI & Agentic Systems: Agentic AI, Multi-Agent Systems, OpenAI SDK, LangChain / LangGraph, CrewAI, Model Context Protocol (MCP), RAG, Prompt Engineering, AI Automation & n8n

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS, HTML/CSS

Backend: Python, FastAPI, PHP, SQL, PostgreSQL, Prisma, REST APIs

Cloud & Infrastructure: Docker, Kubernetes, Helm, GitHub Actions, CI/CD, Vercel, AWS, Neon, MySQL, Redis, Vector Databases

Tools: Git & GitHub, Claude Code, Cursor, VS Code, Postman, Figma, Canva

Leadership: AI Agent Architecture, Technical Leadership & Product Strategy, Community Growth, No-Code/Low-Code Delivery (n8n)

PROFESSIONAL EXPERIENCE

Forward Deployed Engineer | AI Agent Engineer

Jan 2026 - Present

Marsa Empower • Karachi, Pakistan

- Designed, built, and operate a digital platform empowering individuals, ideas, and communities through value-driven content and growth solutions.
- Own end-to-end delivery across AI agent systems, product architecture, full-stack engineering, and deployment.
- Lead product development, digital presence, community growth, and engagement initiatives from concept to launch.
- Translate business and user needs into scalable technical workflows, reliable platforms, and measurable product improvements.

Full-Stack Developer | Freelance

2025 - Present

Independent • Remote

- Launched a freelance practice delivering production web applications; **100+ projects built, 30+ live, and 20+ sold.**
- Build e-commerce platforms with **Next.js, TypeScript, Prisma, Sanity CMS, and Stripe**, including role-based access, admin dashboards, and order tracking.
- Design AI agents and workflow automations using **OpenAI SDK, LangChain, LangGraph, CrewAI, and n8n**, covering RAG-based retrieval and business-process automation.
- Maintain an ongoing agent engineering practice of 100+ completed AI agents, spanning single agents, multi-agent crews, and enterprise AI platforms.

FEATURED PROJECTS

- **ForgeCode** — Production-grade Windows-native autonomous AI coding and computer automation agent with a stateful agent runtime (TypeScript, Python, Node.js).
- **AI Command & Control Center** — Unified dashboard that deploys, monitors, and chains 29 AI agents with live execution logs and per-agent cost tracking (Python, LangGraph, CrewAI).
- **Multi-Tenant RAG Platform** — Enterprise RAG system with an isolated knowledge store and branded assistant per tenant, plus LLM fallback that writes answers back to tenant memory (LangChain, Chroma DB).
- **Full AI SaaS Platform** — Production AI SaaS with OAuth authentication, three Stripe-billed subscription tiers, and ten specialized AI tools gated by plan (Python, OpenAI SDK).
- **Enterprise AI Workflow Automation** — AI-native visual workflow builder composing agent pipelines from 20+ node types with webhook and cron triggers and one-click deploy (LangGraph, CrewAI).
- **Mariam.shop E-Commerce** — Production-ready storefront with Stripe checkout, NextAuth role-based access, admin dashboard, and an OpenAI-powered support chatbot (Next.js, TypeScript, Prisma).

CERTIFICATIONS

- Claude Code in Action — Anthropic (Mar 2026)
- Model Context Protocol: Advanced Topics — Anthropic (Mar 2026)
- Introduction to Model Context Protocol — Anthropic (Mar 2026)
- AI Fluency: Framework & Foundations — Anthropic (Apr 2026)
- Claude 101 — Anthropic (Apr 2026)
- Graphic Designer — JDC Free IT City

EDUCATION

Agentic & Robotic AI Engineer <i>PIAIC (Presidential Initiative for Artificial Intelligence and Computing) • Pakistan</i>	Apr 2025 – Present
DIT — Diploma in Information Technology <i>Govt. of Sindh VTC, Jacobline Saddar • Karachi, Pakistan</i>	Feb 2023 – Sep 2024
Intermediate (Engineering) <i>Govt. Degree College for Women • Pakistan</i>	Apr 2021 – Nov 2023

ADDITIONAL

Hackathons: Participant, Eventon Hackathon I (Physical AI Textbook), II (Evolution of Todo), and III (LearnFlow AI)
Status: Available for new opportunities
